

# 2025 Measured. Powered by ViaPlus.

Annual Mobility Impacts

In 2025, ViaPlus platforms handled over 4.2 billion transactions globally, demonstrating the resilience and efficiency of our technology.

**4,291,684,478**

transactions processed

This number represents 51% of the world's population, or one transaction for every other person on earth.

From tolling to multimodal mobility,  
we ensure revenue continuity and  
deliver fast, reliable, secure payment  
experiences across touchpoints.

**208,739,870**

payments handled

**25,875,628**  
active accounts

Nearly 26 million people depend on our platforms for smooth user experiences, account management, and mobility services at scale.

Our video toll processing strengthens accuracy, revenue assurance, and supports reliable roadway performance across mobility networks.

**576,453,113**

**video transactions**

A nighttime photograph of a city skyline across a body of water. In the foreground, a multi-lane highway bridge with a cable-stayed design is illuminated, showing light trails from traffic. The sky is dark with some clouds.
