

LATITUDE™
SATELLITE TOLLING

Road User Charging. Vehicle Miles Travelled. Mileage-Based User Fees.

Satellite-Based Free-Flow Tolling
Flexible Charging Models
Works with Existing Systems

www.viaplus.com

Latitude™ offers a scalable, GPS-based solution that works across wide geographies, replaces dedicated OBUs with a mobile app, and delivers accurate, low-cost tolling with privacy controls, signal-gap handling, and flexible payments for driver, agency, and environmental benefit.

GPS trials and implementations in Dublin, Ireland;
and Bangalore and Hyderabad, India

Mobile App

- Replaces dedicated OBUs with precise vehicle tracking
- Low-cost, privacy-first tolling with optional tracking and no data retention
- Reliable and flexible: fills GPS gaps and supports prepaid, invoiced, or web payments
